The peculiarities are in the selected materials. Customers can choose between complete or partial leather covers. The handpicked premium leathers with a thickness of up to 3,5 mm differ in the haptics as well as in the appearance. They vary from leather with a soft feel and subtle sheen, vintage look or visible natural features to leather with a firm feel and rough textures. In addition to the full leather covers, the covers can be combined with high-quality fabrics or furs on the inside.

We will gladly consider your individual requirements with regard to the material and colour concepts and will configure the unique furniture according to your preferences.
